The Lanterman Coalition 10 Campaign

The Lanterman Coalition, made up of the 21 major stakeholders in California's community-based developmental service system, is responding to the debilitating effect of years of underfunding, cuts, and rate freezes on the service system and regional centers with a focused and unified strategy, called the "**10 Campaign**".

"The once celebrated California developmental disabilities community system has been eroding for over a decade now. Today the system has reached the moment when it can no longer repair itself with temporary emergency solutions. Families are afraid to ask what society has in store for their loved one's futures, community providers and regional centers struggle daily to protect people from the effects of the system failures, and people with disabilities are on the verge of losing valuable supports. 10% is a starting point to recovery. Get engaged and tell us your stories and how a robust community system would help." – Lanterman Coalition

Video on Changes to IHSS Program

The California Department of Social Services (CDSS) has a new video to assist providers and their recipients in understanding new IHSS program changes.

The video is available in various languages on the CDSS' website by clicking [Here](#).
